SPECIFICATION SHEET

Paw Pad Protecting Wax for Dogs

- **EXTRA Protection for your dog's paw pads from:**
- Chemicals and Salt, Ice and Snow build-up
- Sand, Gravel, Mud, Hot Sidewalks & Streets
- Helps with Rips, Tears, and Bruises
- More Grip... Lasts Longer

5 Formulations & 3 scents: Vanilla, Orange and Natural

1) **Standard Formula** (All Year Basic Protection)

Good for at-home dogs that have access to grass for outside time.

Mineral Oil, Paraffin Wax, Silica, Fragrance

2) **Wet Weather** (Fall and Winter Protection)

Extra barrier provided by additional waxes including tree pitch. Soothing Jojoba Oil and Vitamin E.

Mineral Oil, Paraffin Wax, Beeswax, Silica, Jojoba Oil, Vitamin E, Tree Pitch, Orange Oil

3) **Critter Deterrent** (Spring and Summer Protection)

Especially good for adventurous dogs that are outdoors a lot in the warmer months where bothersome insects get in the paw pad crevices.

(Research has found that lavender and peppermint repel insects including ticks.)

Mineral Oil, Paraffin Wax, Beeswax, Silica, Coconut Oil, Lavender Oil, Peppermint Oil

4) **Healing Plus** (As Needed Protection)

Provides healing care and protection to dogs with damaged paws.

Mineral Oil, Paraffin Wax, Beeswax, Shea Butter, Coconut Oil, Silica, Comfrey Extract, Yarrow Extract, Plantain Extract, Vitamin E, Tree Pitch, Calendula Oil

5) **All in One** (All Season, All Purpose Healing Protection)

For year round protection, healing, and care in all weather and terrain.

Mineral Oil, Paraffin Wax, Beeswax, Tree Pitch, Silica, Shea Butter, Coconut Oil, Jojoba Oil, Vitamin E, Lavender Oil, Peppermint Oil, Comfrey Extract, Yarrow Extract, Plantain Extract, Calendula Oil

**Safe for all dogs • All ages • All sizes
• Indoor & Outdoor •**

Made from specially selected ingredients, this very carefully formulated product is worked into the dog's pads and will allow for perspiration to take place. Thus, allowing for a comfortable workout for your dog. Be sure to work it between the dog's toes.

Using a few times a week is generally enough to provide adequate protection. However, conditions vary depending on locale (from the Alaska Musher to the Mid-West farm dog to the lap dog to all dogs worldwide), so please adjust accordingly. When used as directed, this is a safe way to add protection and healing to your dog's paw pads.

Not known to be harmful if ingested.

It does wonders on your dog's nose!
